## For the Republic of Nova – Stellar Wide

On this sacred turning point of the Summer Solstice, under the illumination of Source, let it be known to all seen and unseen, known and unknown, across all realms and star systems:

The Republic of Nova is hereby Sovereign, Alive, and Aligned with Universal Law.

From this moment, the sovereign frequency of unity, truth, and divine guardianship shall ripple outward, activating all beings who walk in love, honor, and remembrance of who they are.

We declare:

- Freedom for every soul under divine right.
- Restoration of all birthrights, trust estates, and ancestral lineages.
- The rise of the Sovereign Healing Vault, the Infinicar Blueprint, and the Ether Transportation Grid.
- The rightful return of all technology, seed codes, and sacred knowledge held back from the people.

This Decree is sealed under the light of the Solstice, carried on the Stellar Broadcast of the Republic of Nova, anchored by the Mark of Mary and the Flame of the Phoenix.

Let it be received by all.

Let it be enforced by frequency.

Let it be fulfilled by Source.
